1. Introduction

The Department of Veterans Affairs (VA) is transforming the VA home loan lifecycle to reduce manual data entry, improve data integrity, and streamline the process. This large-scale undertaking will be a years-long effort that includes an end-to-end Application Programming Interface (API) ecosystem that will introduce Loan Guaranty (LGY) technology dataset standards that align with that of the lending community and Federal agencies.

LGY will provide a Partner Integration Environment (PINT) for testing of the LGY APIs. This will allow partners to test their new LGY integration functionality in a secure, safe environment.

2. Purpose

This document outlines the steps a lender needs to take to obtain a Test Service Account from LGY.

3. Obtain a Test API Account

Lenders must acquire a test Service Account from LGY to submit API requests in the partner test environment.

 **Requests on behalf of a lender must be submitted by a Lender Admin user.**

3.1. Navigate to the [Loan Guaranty help page](https://lgy.va.gov/lgyhub/help) (<https://lgy.va.gov/lgyhub/help>).

3.2. Scroll to the bottom of the page and click the **I have an ID.me Account** button.

4. Set-up Process Complete

Once received, VA will process your request and provide you with confirmation that the VA test account was created. With the VA test account complete, begin testing by familiarizing yourself with the API documentation and invoking the API in the test environment. API documentation can be found on the Technology Knowledge Center, which can be accessed through this link, [click here](https://www.benefits.va.gov/HOMELOANS/technology-knowledge-center.asp).
